Headteacher - Mrs K Canham, BA (Hons), MA

September 2016

Dear Parents/Guardians

I am sure that last year your son/daughter brought home a number of interesting products made in their Design and Technology classes. As your child enters Year 9, they will work through 6 new modules during the year. These modules develop their Design and Technology skills and allow them to experience greater challenges. We strive to ensure that all projects undertaken are stimulating to students and provide them with the opportunity to work with high quality materials and components. The modules will cover a range of Electronics, Product Design, Food, Resistant Materials, STEM and Textiles.

We find that students are proud of their work and take great pleasure in showing it off to their families at home. Unfortunately providing the material is always costly and it is for this reason that we request a **contribution from parents/guardians for the year. A sum of £6.00** would help cover the cost of the materials used (excluding food).

I would be very grateful if all parents/guardians could complete the slip below and return it with the contribution via your child to the Finance Office during morning registration. If your son/daughter receives free school meals, we appreciate that contributing towards materials may be difficult.

I would finally like to take this opportunity to wish your son/daughter a successful and productive year in Design and Technology.

Yours sincerely

M Featherstone (Mr)
Head of Department
