KATE BANCROFT

International Baccalaureate

Haygrove School

"Studying the IB has instilled in me a very strong work ethic. I found it difficult at times, but by taking advantage of all of the resources around me and remaining engaged with my peers and tutors I've had an incredible time. After College I'm going to my dream university in Massachusetts."

CHARLOTTE WHITEROD

Level 2 Technical Diploma in Children's Play, Learning & Development

Haygrove School

"I didn't know anyone when I started this course but quickly made new friends and gained in confidence. The work experience has helped with that, as well as the staff being supportive. I love what I'm studying, so when I complete this course I plan to continue my childcare studies with a Level 3 qualification either full-time at College or on an apprenticeship."

AMY MILLER

Technical Baccalaureate Diploma
in Engineering

Haygrove School

"I love that we are able to do extra things on top of the course we're studying at BTC. I'm completing a maths A Level alongside my engineering course, and it's timetabled so I don't miss anything and can reach my full potential. With the support of the staff, I've achieved high predicted grades and EDF have already offered me a place on their Nuclear Engineering Degree Apprenticeship programme."

HANNAH MARTIN

Level 3 Extended Diploma
in Business

Haygrove School

"My course has a good mix of classroom time and independent study that helps us progress, and I've learnt to work in a team, improve my communication skills and understand customer service. I'm also able to present work to others without feeling under too much pressure, which I couldn't have done at the start of College."

MARY LOCKYER

Level 3 Extended Diploma in
Equine Management

Haygrove School

"I chose to study at BTC because it's one of the few local colleges that offers courses in equine studies. I enjoy learning in a practical environment alongside horses, so the course is perfect for me."
